This is a “Travel like the locals” tour. The tours use public transport, i.e. regular buses, ferries and boats, but we have done the planning for you so that you can concentrate on enjoying your trip. You travel on your own - there is no guide or tour leader. On most of our tours you must change several times between different buses/ferries/boats, and it is up to you to make sure you catch your connections – truly travelling like a local! (The tours are set up so that the buses, ferries and boats connect.)

Round trip Kristiansund - Molde – Bergtatt Marble Caves - the Atlantic Road

Kristiansund - Molde – Bergtatt - the Atlantic Road – Kristiansund

This trip combines the experience of the beautiful Bergtatt marble caves and what is said to be the world’s most beautiful road, the Atlantic Road. You also have some time in Molde.

Molde is famous for its view towards the “Molde Panorama”, the impressive row of mountains on the other side of the fjord. In the summer, the town lives up to its name “Town of roses”, and in July the famous Molde International Jazz Festival takes place.

The marble caves are part of Naas Kalksteinbrudd, a working marble mine beyond the usual. In some of the tunnels that are no longer being excavated, a visitor’s center – Bergtatt (literally “taken (in) by the mountain) - has been opened. These caves function as a concert venue, as well as an attraction in itself.

The visit includes a boat tour on the caves’ crystal clear, captivatingly illuminated water. Well inside the mountain, you will be offered a drink of the pure mountain water directly from the mountain wall. After the boat tour you will visit the concert hall to see a video about the history of the mine and its current operation.

You then go on the the Atlantic Road. With its location at the edge of the mighty ocean, the Atlantic Road is as beautiful in sunshine and calm weather as in full storm and rain.

The Atlantic Road connects Averøy with the mainland via a series of small islands and islets spanned by a total of eight bridges over 8274 meters. The road is a national tourist route.

On this round trip, the bus stops at Eldhusøya, where there is a suspended walkway around the islet. The walkway consists of latticework (“grids”) “floating” above the terrain, and is suitable for or anyone.

This itinerary is not valid as a ticket.

The service building at Eldhusøya, with its distinct architecture that falls into the terrain, has a café and toilets. (Open Saturdays and Sundays in the spring and every day 1st June – 31st August.)

The return to Kristiansund goes via Kårvåg.

Departure from: Kristiansund bus terminal
